PHOTOGRAPHY COLLECTION INDEX FINDING AID

The finding aid is divided into thematic sections that match those found on the Photography Collection page of the Carpinteria Valley Museum of History's website. The major subject areas of each section are noted in the order in which they appear in each pdf document (the order of the index cards) and may not be alphabetical. Secondary subject areas are noted as well. The subject areas listed in the finding aid give a board overview of each thematic document, but do not represent every index card or every possible subject that may be found.
